

EVALUATION AND DISTRIBUTION AGREEMENT

IMPORTANT-READ CAREFULLY: DO NOT INSTALL, COPY OR USE THE ENCLOSED SOFTWARE, DOCUMENTATION (AS DEFINED BELOW), OR ANY PORTION THEREOF, (COLLECTIVELY "SOFTWARE") UNTIL YOU HAVE CAREFULLY READ AND AGREED TO THE FOLLOWING TERMS AND CONDITIONS. THIS IS A LEGAL AGREEMENT ("AGREEMENT") BETWEEN YOU (EITHER AN INDIVIDUAL OR AN ENTITY) ("YOU") AND ADVANCED MICRO DEVICES, INC. ("AMD"). IF YOU ARE ENTERING INTO THIS AGREEMENT ON BEHALF OF A COMPANY OR OTHER LEGAL ENTITY, YOU REPRESENT THAT YOU HAVE THE LEGAL AUTHORITY TO BIND THE ENTITY TO THIS AGREEMENT, IN WHICH CASE "YOU" WILL MEAN THE ENTITY YOU REPRESENT.

IF YOU DO NOT AGREE TO THE TERMS OF THIS AGREEMENT, DO NOT INSTALL, COPY OR USE THIS SOFTWARE. BY INSTALLING, COPYING OR USING THE SOFTWARE YOU AGREE TO ALL THE TERMS AND CONDITIONS OF THIS AGREEMENT.

1. DEFINITIONS.

1.1 "Derivative Works" means any work, revision, modification or adaptation derived from the Software or any work that incorporates the Software in whole or in part.

1.2 "Documentation" means install scripts and online or electronic documentation associated, included, or provided in connection with the Software, or any portion thereof.

1.3 "Free Software License" means any software license that requires as a condition of use, modification, adaptation or distribution of such licensed software: (i) that other software derived from, distributed with or incorporated into at the source code level be disclosed or distributed in Source Code form, (ii) a prohibition on requiring any royalty or fee; or (iii) that the software be licensed for the purpose of making derivative works. By way of example, Free Software License includes, but is in no way limited to any of the following licenses or distribution models, or licenses or distribution models similar to any of the following: (i) GNU's General Public License (GPL), (ii) The Artistic License (e.g., PERL), (iii) the Mozilla Public License, (iv) the Netscape Public License, (v) the Sun Community Source License (SCSL), and (vi) the Sun Industry Standards Source License (SISSL).

1.4 "Intellectual Property Rights" means all copyrights, trademarks, trade secrets, patents, mask works, and all related, similar, or other intellectual property rights recognized in any jurisdiction worldwide, including all applications and registrations with respect thereto.

1.5 "Licensee Products" means products designed or manufactured by Licensee that incorporate AMD products.

1.6 "Object Code" means machine readable computer programming code files, which is not in a human readable form.

1.7 "Source Code" means computer programming code in human readable form and related system level documentation, including all comments, symbols and any procedural code such as job control language.

2. LICENSE. Subject to the terms and conditions of this Agreement, AMD hereby grants Licensee a non-exclusive, royalty-free, revocable, non-transferable, limited, copyright license to:

- a) install, use, and copy the Software and create Derivative Works for internal use only at Licensee's sites solely for the purpose of developing, testing and debugging Licensee Products; and
- b) distribute and sublicense the Software and Derivative Works to customers and end users (collectively, "Distribution Channel") for use with AMD products when incorporated within Licensee Products. Such distribution may be made through multiple tiers of distribution, only subject to an end user license agreement that meets the requirements in section 2.1.

2.1 End User License Agreement. Distribution of Software by You and Your Distribution Channel will be pursuant to an enforceable end user license agreement ("End User License Agreement") with terms and conditions that at a minimum are substantially similar to those set forth in Section 3 and the following: (a) prohibition on transfer or duplication of the Software (except for reasonable backup); (b) prohibitions on reverse engineering (unless allowed by law for interoperability), disassembly or de-compilation of the Software in Object Code; (c) disclaimer, to the extent permitted by applicable law, of You and Your licensors' liability for any damages, whether punitive, direct, incidental, indirect, special or consequential damages, arising from the use of, or distribution of the Software; (d) requirement that the end user comply fully with all relevant export laws and regulations of the United States and other applicable export and import laws; and (e) notification to the end user that the Software is subject to a restricted license and can only be used in conjunction with the intended AMD products. You will be financially responsible for all claims and damages to AMD caused by a breach of this Section 2.1. AMD is a third party beneficiary of any End User License Agreement.

2.2 Licensee grants AMD a worldwide, irrevocable, perpetual, transferable, royalty-free license with the right to sublicense, to make, have made use, disclose, reproduce, modify, create derivative works of, license, sell, offer for sale, and otherwise distribute the Derivative Works.

3. RESTRICTIONS. Except for the limited licenses granted herein, Licensee will have no other rights in the Software, whether express, implied, arising by estoppel or otherwise. Further restrictions regarding Licensee's use of the Software are as follows. Except as expressly authorized herein, Licensee may not:

- a) modify or create Derivative Works of the Software in Object Code;
- b) distribute, publish, display, sublicense, assign or otherwise transfer the Software or Derivative Works;
- b) alter or remove any copyright, trademark or patent notice(s) in the Software;
- c) use the Software to: (i) develop inventions directly derived from Confidential Information to seek patent protection; (ii) assist in the analysis of Licensee's patents and patent applications; or (iii) modify Licensee's existing patents or patent applications; or
- d) use or modify any of the Software so that any part becomes subject to a Free Software License.

4. OWNERSHIP. The Software as well as all Intellectual Property Rights therein are and remain the sole and exclusive property of AMD or its licensors, and Licensee shall have no right, title or interest therein except as expressly set forth in this Agreement. Subject to AMD's ownership of the underlying Software, Licensee shall retain all right, title and interest in and to the Derivative Works created by the Licensee. Licensee agrees to provide AMD with a copy of all Derivative Works.

5. FEEDBACK. Licensee has no obligation to give AMD any suggestions, comments or other feedback ("Feedback") relating to the Software. However, AMD may use and include any Feedback that it receives from Licensee to improve the Software or other AMD products, software and technologies. Accordingly, for any Feedback Licensee provides to AMD, Licensee grants AMD and its affiliates and subsidiaries a worldwide, non-exclusive, irrevocable, royalty-free, perpetual license to, directly or indirectly, use, reproduce, license, sublicense, distribute, make, have made, sell and otherwise commercialize the Feedback in the Software or other AMD products, software and technologies.

6. SUPPORT AND UPDATES. AMD is under no obligation to provide any kind of support under this Agreement. AMD may, in its sole discretion, provide to Licensee updates to the Software, and such updates will be covered under this Agreement.

7. THIRD PARTY MATERIALS. The Software may include third party components for which Licensee must obtain licenses from parties other than AMD (collectively, "Third Party Materials"). These Third Party Materials are not licensed as part of the Software licensed under this Agreement and are used at Licensee's sole discretion.

Licensee is solely responsible for obtaining all applicable Intellectual Property Rights to use the Third Party Materials. In addition, the Software may include code or content subject to an open source or similar license ("Open Source Component"). To the extent that an Open Source Component is subject to a license that is inconsistent with this Agreement, then such Open Source Component shall be governed solely by the applicable open source license.

8. WARRANTY DISCLAIMER, LIMITATION OF LIABILITY AND INDEMNIFICATION.

8.1 Limited Warranty. Licensee represents and warrants that it shall not provide Derivative Works or Feedback that (a) Licensee knows is subject to Intellectual Property Rights of any third party or (b) is subject to license terms which seek to require any products incorporating or derived from such Derivative Works or Feedback, or other AMD intellectual property, to be licensed to or otherwise shared with any third party.

8.2 Disclaimer of Warranty. THE SOFTWARE IS PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND. AMD DISCLAIMS ALL WARRANTIES, EXPRESS, IMPLIED, OR STATUTORY, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, THAT THE SOFTWARE WILL RUN UNINTERRUPTED OR ERROR-FREE OR THOSE ARISING FROM CUSTOM OF TRADE OR COURSE OF USAGE. THE ENTIRE RISK ASSOCIATED WITH THE USE OF THE SOFTWARE IS ASSUMED BY LICENSEE. Some jurisdictions do not allow the exclusion of implied warranties, so the above exclusion may not apply to Licensee.

8.3 Limitation of Liability and Indemnification. AMD AND ITS LICENSORS WILL NOT, UNDER ANY CIRCUMSTANCES BE LIABLE TO LICENSEE FOR ANY PUNITIVE, DIRECT, INCIDENTAL, INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING FROM USE OF THE SOFTWARE OR THIS AGREEMENT EVEN IF AMD AND ITS LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. In no event shall AMD's total liability to Licensee for all damages, losses, and causes of action (whether in contract, tort (including negligence) or otherwise) exceed the amount of \$100 USD. Licensee agrees to defend, indemnify and hold harmless AMD and its licensors, and any of their directors, officers, employees, affiliates or agents from and against any and all loss, damage, liability and other expenses (including reasonable attorneys' fees), resulting from Licensee's use or distribution of the Software or violation of the terms and conditions of this Agreement.

9. CONFIDENTIALITY. Licensee shall protect the Software and any information related thereto ("Confidential Information") by using the same degree of care, but no less than a reasonable degree of care, to prevent the unauthorized use, dissemination or publication of the Confidential Information as Licensee uses to protect its own confidential information of a like nature. Licensee shall not disclose any Confidential Information disclosed hereunder to any third party and shall limit disclosure of Confidential Information to only those of its employees and contractors with a need to know and who are bound by confidentiality obligations with Licensee at least as restrictive as those contained in this Agreement. Licensee shall be responsible for its employees and contractors adherence to the terms of this Agreement. Licensee may disclose Confidential Information in accordance with a judicial or other governmental order, provided that Licensee either (a) gives AMD reasonable notice prior to such disclosure to allow AMD a reasonable opportunity to seek a protective order or equivalent or (b) obtains written assurance from the applicable judicial or governmental entity that it will afford the Confidential Information the highest level of protection afforded under applicable law or regulation. Notwithstanding anything to the contrary in this Section 9 (Confidentiality), nothing herein shall supersede Licensee's and its Distribution Channel's license right to distribute Software and Derivative Works in accordance with the terms and conditions of this Agreement.

10. TERMINATION AND SURVIVAL. Either party may terminate this Agreement upon thirty (30) days prior written notice to the other party. This Agreement will terminate immediately without notice from AMD if Licensee fails to comply with any provision of this Agreement. Upon termination or expiration of this Agreement, Licensee will cease using and destroy or return to AMD all copies of the Confidential Information, including, but not limited to Software. Upon termination or expiration of this Agreement, all provisions survive except for Section 2.1.

11. EXPORT RESTRICTIONS. Licensee shall adhere to all applicable U.S. import/export laws and regulations

including but not limited to the U.S. Export Administration Regulations ("EAR") and U.S. Office of Foreign Assets Control (OFAC), as well as the applicable import/export control laws and regulations of other countries. Licensee further agrees to not export, re-export, or transfer, directly or indirectly, any product, technical data, software or source code received from AMD under this license, or the direct product of such technical data or software to any country for which the United States or any other applicable government requires an export license or other governmental approval without first obtaining such licenses or approvals; or in violation of any applicable laws or regulations of the United States or the country where the technical data or software was obtained. Licensee acknowledges the technical data and software received will not, in the absence of authorization from U.S. or local law and regulations as applicable, be used by, exported, re-exported or transferred, directly or indirectly, to: (i) any sanctioned or embargoed country, or to nationals or residents of such countries; (ii) any restricted end-user as identified on any applicable government end-user list (e.g., BIS Denied Persons List); (iii) any party where the end-use involves nuclear, chemical/biological weapons, rocket systems, or unmanned air vehicles; (iv) any party whose actions or functions are intended to support or contribute to the operation, installation, maintenance, repair, overhaul, refurbishing, development, or production of military items in Belarus, Russia, Burma, Cambodia, the People's Republic of China ("PRC") or Venezuela; or (v) any party for any military end-use or any end-use prohibited in Section 744 of the EAR, including but not limited to incorporation in a "supercomputer" (as defined in Section 772 of the EAR) or a component or equipment that will be used in a supercomputer any party any party for the design, development or production of a supercomputer located in PRC or Macau.

For the most current Country Group listings, or for additional information about the EAR or Licensee's obligations under those regulations, refer to the U.S. Bureau of Industry and Security's website at <http://www.bis.doc.gov/>. For the most current ITAR regulations, visit https://www.pmddtc.state.gov/ddtc_public.

12. Notice to U.S. Government End Users. The Software and related documentation are "commercial items", as that term is defined at 48 C.F.R. §2.101, consisting of "commercial computer software" and "commercial computer software documentation", as such terms are used in 48 C.F.R. §12.212 and 48 C.F.R. §227.7202, respectively. Consistent with 48 C.F.R. §12.212 or 48 C.F.R. §227.7202-1 through 227.7202-4, as applicable, the commercial computer software and commercial computer software documentation are being licensed to U.S. Government end users (a) only as commercial items and (b) with only those rights as are granted to all other end users pursuant to the terms and conditions set forth in this Agreement. Unpublished rights are reserved under the copyright laws of the United States.

13. GOVERNING LAW. This Agreement is made under and shall be construed according to the laws of the State of Texas, excluding conflicts of law rules. Each party submits to the jurisdiction of the state and federal courts of Travis County and the Western District of Texas for the purposes of this Agreement. Licensee acknowledges that Licensee's breach of this Agreement may cause irreparable damage and Licensee agrees that AMD shall be entitled to seek injunctive relief under this Agreement, as well as such further relief as may be granted by a court of competent jurisdiction.

14. GENERAL PROVISIONS. Licensee may not assign this Agreement without the prior written consent of AMD and any assignment without such consent will be null and void. This Agreement may be executed in multiple counterparts, each of which shall constitute a signed original. Any facsimile or electronic image of this Agreement or writing referenced herein shall be valid and acceptable for all purposes as if it were an original. The parties do not intend that any agency or partnership relationship be created between them by this Agreement. Each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under applicable law. However, in the event that any provision of this Agreement becomes or is declared unenforceable by any court of competent jurisdiction, such provision shall be deemed deleted and the remainder of this Agreement shall remain in full force and effect.

15. ENTIRE AGREEMENT. This Agreement sets forth the entire agreement and understanding between the Parties with respect to the Software and supersedes and merges all prior oral and written agreements, discussions

and understandings between them regarding the subject matter of this Agreement. No waiver or modification of any provision of this Agreement shall be binding unless made in writing and signed by an authorized representative of each Party.

If You agree to abide by the terms and conditions of this Agreement, please press "Accept." If You do not agree to abide by the terms and conditions of this Agreement and press "Decline," You may not use the Software.

This Exception is an additional permission under section 7 of the GNU General Public License, version 3 ("GPLv3").

Please send patches to <config-patches@gnu.org>.

Configuration subroutine to validate and canonicalize a configuration type. Supply the specified configuration type as an argument. If it is invalid, we print an error message on stderr and exit with code 1. Otherwise, we print the canonical config type on stdout and succeed.

You can get the latest version of this script

from:http://git.savannah.gnu.org/gitweb/?p=config.git;a=blob_plain;f=config.sub

This file is supposed to be the same for all GNU packages and recognize all the CPU types, system types and aliases that are meaningful with *any* GNU software. Each package is responsible for reporting which valid configurations it does not support. The user should be able to distinguish a failure to support a valid configuration from a meaningless configuration.

The goal of this file is to map all the various variations of a given machine specification into a single specification in the form:CPU_TYPE-MANUFACTURER-OPERATING_SYSTEM

or in some cases, the newer four-part form:CPU_TYPE-MANUFACTURER-KERNEL-OPERATING_SYSTEM. It is wrong to echo any other type of specification.

See the GNU General Public License for more details. You should have received a copy of the GNU General Public License along with this program. If not, see <<http://www.gnu.org/licenses/>>.

As a special exception, when this file is read by TeX when processing a Texinfo source document, you may use the result without restriction. This Exception is an additional permission under section 7 of the GNU General Public License, version 3 (" GPLv3").

Please try the latest version of texinfo.tex before submitting bug reports; you can get the latest version from:

<http://ftp.gnu.org/gnu/texinfo/> (the Texinfo release area), or

<http://ftpmirror.gnu.org/texinfo/> (same, via a mirror), or <http://www.gnu.org/software/texinfo/> (the Texinfo home page) The texinfo.tex in any given distribution could well be out of date, so if that's what you're using, please check.

Send bug reports to bug-texinfo@gnu.org. Please include including a complete document in each bug report with which we can reproduce the problem. Patches are, of course, greatly appreciated.

To process a Texinfo manual with TeX, it's most reliable to use the texi2dvi shell script that comes with the distribution. For a simple manual foo.texi, however, you can get away with this:

```
tex foo.texi  
texindex foo.??  
tex foo.texi  
tex foo.texi  
dvips foo.dvi -o # or whatever; this makes foo.ps.
```

The extra TeX runs get the cross-reference information correct. Sometimes one run after texindex suffices, and sometimes you need more than two; texi2dvi does it as many times as necessary.

It is possible to adapt texinfo.tex for other languages, to some extent. You can get the existing language-specific files from the full Texinfo distribution.

The GNU Texinfo home page is <http://www.gnu.org/software/texinfo>.
